

## **READING IS FUN**

"A book is a dream you hold in your hands". It takes you to the world of imagination and enhances your creativity without even moving your feet. By active reading, we explore several aspects of life. Reading stimulates our thoughts and develops our brain. It gives us a new perspective. The importance and value of the greatest treasure 'The Books' were shared with the students in the assembly which also highlighted the benefits of reading. To inculcate reading habits among Class III students, "World Book Day" was celebrated virtually on April 23, 2021. A storytelling session was conducted by the teachers wherein they narrated a folk tale "The Magic Porridge Pot" with the intention to infuse critical thinking skills in students to help them grow into compassionate human beings. The students enjoyed listening to the folk tale as they were asked reflective questions. It also helped in enriching their vocabulary bank and were encouraged to create their own stories to develop life long memories. An activity was also conducted wherein students made a beautiful garden scene depicting Common and Proper Nouns. Students merrily enjoyed the reading session.
