

# **BOOK COVER MAKING ACTIVITY**

**“Good cover design is not only about beauty....it’s your first contact with the potential reader”**

**A book cover making activity was being organised for students of Class V. The interesting story “The Puddle Monster” was the theme for the activity. Students prepared an attractive and eye catching book cover for the same story. They depicted the story on the book cover through their innovative ideas. They shared the pictures of book cover with their class teachers. The activity helped to explore their innate potential. Students enthusiastically participated in the activity and gained a lot through it.**
