

WORLD DONOR DAY

"Blood Donation Costs You Nothing, But It Can Mean The World To Someone In Need".

The World Blood Donor Day takes place on 14th June every year. This year, APS ROTAKIDS took an initiative to spread awareness amongst people to donate blood and gift a new life to someone. The Kids made attractive posters to make everyone realize that the donation of blood is a great act of Kindness. Ananya Bhatia, A ROTAKID conveyed a message through a video bringing light and urging healthy people, above 18 years of age to come forward and donate blood to save life.

A drop of your blood is an extension of life span for someone else. Donate blood today!
