

# COLOURING COMPETITION

*“Every child can make a difference one small step at a time.”*

To celebrate Earth Day, a Colouring Competition was organised for the students of Class II. The event aimed to raise awareness among young learners about the importance of protecting our planet while encouraging their creativity and artistic expression. Children enthusiastically participated and showcased their imagination through vibrant colours. It was heart-warming to see how thoughtfully the students depicted messages of saving the environment. The activity not only brought out the artistic talents of the students but also helped instil in them a sense of responsibility towards Mother Earth. The event was a great success filled with fun, learning, and colourful expressions of love for our planet.
